

Cold Cathode Fluorescent Lamp

Features

- Powered by DynamicLux™ Technology
- Dimming:** Supports market available SCR dimmers that support incandescent bulbs (e.g. Leviton, Lutron)
- Long Lasting:** 25,000 hrs
- On/Off:** Unlimited switching, no negative effects on lifetime
- Sensors & Timers:** Will not reduce lifetime
- Energy Savings:** Up to 80% savings over standard incandescent bulbs
- Warranty:** 3 year limited warranty

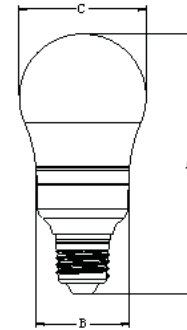

Specifications

CL108D/120F	
Part Number	FSJPDTBT0601
Product Series	Classic
Voltage	AC 110-120V 60Hz
Watt	8W
Lumen Output	360 lm
Lifetime	25,000hr
Luminous Efficacy	45 lm/W
Color Temperature	Warm White (2700K) ¹
Lamp Base	Medium Screw (E26)
Color Rendering Index	≥ 80
Dimming	100% to 10% ²

Dry locations only

¹ Also available in other color temperatures with different performance

² Dimming range is measured in lux level, may perform differently with different dimmers

Dimensions

CL108D/120F	
MOL (a)	5.12 in
Diameter (b)	Ø1.77 in
Max Width (c)	Ø2.48 in
Weight	3.81 oz
Standard Pack	50pcs / box

DynamicLux™ Technology

Proprietary Cold Cathode Fluorescent Lamp (CCFL) technology powered by DynamicLux™ that enables CCFL with high wattage for general lighting applications. It features smooth dimming with unlimited and intensive on/off switching. It also provides longer lifetime and more energy savings when integrated with sensors.
